## 2050-0005
MINI DIGITAL CALIPER

Description

The DASQUA Mini Digital Caliper is a compact and precision measuring tool designed for professionals and hobbyists who require accurate measurements in a portable form. Lightweight and portable, perfect for small-scale measurements and tight spaces. Suitable for internal, external, depth, and step measurements. Constructed from high-quality stainless steel or durable composite materials to ensure long-lasting performance. Typically 0-100mm (0-4 inches), depending on the model.

Unit:mm
